You should reference quality manual and any other QMS documentation for a description and sequence of interaction of processes. At minimum, the results of each audited product process (determined by the organization- reference clauses 4.1 and 7.1) must be recorded on a PEAR. There is a new focus on audit planning in AS9101F. Feb 08, 2022 - Texas Instruments has been making progress possible for decades. We are a global semiconductor company that designs, manufactures, tests and sells analog and embedded processing chips.
